## **DETAILED ACTION**

### ***Drawings***

1. The drawings were received on 3/1/05. These drawings are acceptable and therefore the objection to the drawings is withdrawn.

### ***Claim Rejections - 35 USC § 103***

2. Applicant's request for reconsideration of the rejection to claims 1-10 under 35 U.S.C. 103(a) in the last Office action is persuasive and, therefore, the rejection to claims 1-10 is withdrawn.

### ***Allowable Subject Matter***

3. Claims 1-10 are allowed.
4. The following is an examiner's statement of reasons for allowance:  
  
With regards to claim 1, the prior art made of record {USP 5,923,644 (McKeown et al), USP 5,175,858 (Hammerstorm), USP 6,757,246 (Alasti et al), and USP 5,265,235 (Thacker)} do not disclose, in combination with other elements in the claims, "a grant step of examining the connection requests, and, for each egress port for which there is a connection request, selecting one request for grant, and generating a grant signal indicative of the selected request; employing, for each possible combination of an ingress port and an egress port, a respective weight value, a connection request only

Art Unit: 2635

being selected in said grant step if the corresponding weight value is not zero; each time a connection is made in the crossbar switch involving an ingress port and an egress port, decrementing the corresponding weight value".

Claims 2-5 are dependent on claim 1, claim 6 recites a system for practicing the method of claim 1, and claims 7-10 are dependent on claim 6, and therefore allowable for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
